## **TECHNICAL BULLETIN**

Heating Systems	September 20, 2007	Bulletin Identification No.: MTB-103-11
Release Type: Public		
Affected Model(s): Effective Date:	OASIS CH50, H2, H2L, and HWH September 20, 2007	
Effective Serial Number:	CH50X-XXXX-1583 (will include orifice internally) H2XX-XXXX-1281 (will include orifice internally) H2LX-XXXX-1093 (will include orifice internally) HWHXX-XXXX-1082 (will include orifice internally)	
Description:	Fuel return restrictor	
Part No. (Old):	N/A	
Part No. (New):	2333 (Orifice 0.07")	

## Short description of change:

If heaters prior to the above serial numbers are experiencing frequent flame faults and/or making popping sounds, add a restrictor (#2333, 0.07" orifice) to the fuel return line in order to create a positive fuel pressure on the regulator assuring a constant supply of fuel to the nozzle. The restrictor can, as show in the example below, be placed anywhere in the fuel return line close to the heater.

Figure 1: 0.07" Orifice

Figure 2: For example installed on fuel outlet.
